Dr. David M. Engle, 54, of Lebanon passed away Saturday, March 21, 2026 at the M.S. Hershey Medical Center. “ My husband and I were both patients of Dr. Engle. I just found out today that he passed away. If it were not for Dr. Engle I would probably be dying. I had stage 3 Papillary Thyroid Carcinoma that metastasized to my neck lymph nodes. He didn't know that at the time. He just knew I had Thyroid nodules. He personally called my surgeon who specialized in Thyroid to see if he would see me. He was normally booked up but he would keep 1 opening in his schedule and bc Dr. Engle called, that appointment went to me and he was able to cut out all the cancer. We loved him as our doctor and I am heartbroken for all of us but especially for his family. He was so kind so I can only imagine how he must have been with his family and they will dearly miss him. May God bless them with his peace and love at this time.

“ We were lucky to have Dave as a friend and neighbor. What a small world years ago to find out he had married my high school friend and ended up in the same neighborhood! He loved and supported his kids in all activities. I will never forget seeing him and Shannon walking around the neighborhood which they did very consistently, regardless of weather! We miss you Dave!
