“ You learn a lot about life when you are young. You are taught a lot of things by so many people. You also see a lot of examples of good/bad behavior along the way. What I learned from my stepdad are all behaviors he showed daily and characteristics that I proudly try to emulate every day. To be responsible and to do things to the best of your ability, never give half the effort. To be loyal, caring, loving, trustworthy, patient, and protective. Thank you for being a role model in my life and treating us as your own. Save a place for us and we will see you again one day
