“ Len was always seen driving "old blue" thru seven stars, he and his truck were icons on the community. Len is the type of guy you could always count on, the guy that always had a solution to even the most crazy problems. He was a great friend and a great guy all around. I met Len when he would come to Fishers Repair to have old blue serviced. You could talk to him for hours about farming, tractors, guns, potatoes, electrical, and more. Lens passing is difficult to those that had the honor of knowing him and he is definitely someone that can never be replaced. His memory will live on with his wild stories and that contagious laugh. Are condolences go out to his family and friends and know that Len will be greatly missed.
