“ Dear Mary,

What can I say after 45 years of friendship. I was shocked and saddened to hear of your untimely passing.

I am grateful for all the years we spent together in our early 20's and boy did we have fun back then. And when our careers went in different directions, with me moving and getting married , we continued our friendship and for that I will always be grateful. I will miss your sense of humor and quick wit along with our long distance telephone calls, sometimes hours, discussing politics, movies , current events and mostly our younger version of ourselves.

Every Christmas when decorating our tree with some of your ornaments , it will bring a smile to my face remembering you. You never missed an occasion whether it be Christmas, birthdays, anniversaries in sending the most beautiful cards (sometimes with your sense of humor) that made us laugh.

With that being said, as sad as I am today, I know I will have an extra angel looking down on me and for that I am truly blessed.

Rest In Peace my beautiful friend ☐

“ I remember playing, find the thimble and find the #'s at Grandma & Pumpy's when we were little.

You visited me in Virginia and we made a cassette tape for Grandma. We told her all about the places we went to see. She really enjoyed that.

Can't forget our trips to King of Prussia Mall to do our Christmas shopping. Sometimes your bags of sale papers were heavier than our packages. We always enjoyed pizza afterwards.

I won't forget all of your Thursday phone calls to check on Dale and all the e-cards you sent him.

Vicki
