“ I miss you everyday so much all the memories we had when we were growing up with Mom, the things we did together the last we had (Harry). The talks we had about everything that we could think of especially about Trump. You would come over for my favorite coffee that's what you called it. I will never forget you I miss you everyday. You were such a fighter with your cancer but I guess God had different plans for you rest in peace my sister until we meet again.
